

Valiant Platform Release: What you Need to Know

The following is a quick overview guide of what is coming out in the **2020.6 Release (August 14, 2020)**.

This will help you communicate any updates to the platform.

SmartForce	Product Name for NGA
Valiant Mobile	Valiant's Mobile App for Android and iOS
Legacy	Vision and Vault Platforms

FEATURE/APPLICATION	DETAILS OF THE RELEASE ITEM	PLATFORM
Billing Management in TLM	<p>A big part of this release is designing more functionality into the billing management application within the TLM Module. Some of the key enhancements include:</p> <ol style="list-style-type: none"> Batch Invoice Functionality: We've updated billing for batch invoicing which enables administrators to create invoices batches, similar to payroll batches. You can create the batches, and drilldown on individual invoices within the batch. User Interface: Made changes to Billing menu to improve usability by adding Important Actions and including items for new invoice batch functionality, as well as Reorganizing the Billing Adjustment screen and fix Business Unit / Customer / Location / Post selection to be hierarchical. Calculation and Adjustment Enhancements: You can now make payroll and billing adjustments from the TLM schedule screen – both options are now in the same place. You can also base a bill rate from a pay rate (cost plus) at the post level in TLM, and display a calculated billings collection on the invoice detail within Billing. 	SmartForce
Shift Posting Phase II	<p>We added additional functionality to our Shift Posting in TLM. These additions include:</p> <ol style="list-style-type: none"> Ability for supervisors to choose employees for offers at Shift level if available and they accepted the offer. Ability for supervisors to bulk approve published offers, Shift offers accepted by employees, shift offers based on max hours, work history and/or qualifications. The ability to enable an Auto-Approval rule for supervisors, based on certain conditions. 	SmartForce

FEATURE/APPLICATION	DETAILS OF THE RELEASE ITEM	PLATFORM
Employee Onboarding Integration	<p>We've finalized an integration with FBA's Employee Onboarding solution. This provides a way for customers to onboard their employees in an online onboarding solution that provides the tracking and documentation in a contactless, paperless manner:</p> <ul style="list-style-type: none"> • Electronically signed W4/I9s, manuals and more • Centralized Portal to track onboard status • Auditable and traceable document history • Integrated into the Employee Profile to get them back on the schedule <p>This release establishes the DTO to move the Employee information from FBA to the SmartForce Platform.</p>	SmartForce
Various Fixes and Updates	<p>We've also made some fixes and updates to:</p> <ul style="list-style-type: none"> • Add Forgot Password link to Activation page and improve visibility of Cancel button on Pin Request page on the Mobile App • Implement changes for ADP Q2 2020 export file updates • Enable Employee Work Days Available functionality in Smartforce and improve workflow so client can see and set employee availability • Other various fixes and updates 	SmartForce and Legacy
