FEATURE/APPLICATION	DETAILS OF THE RELEASE ITEM	PLATFORM
<p>User Experience and Ease of Use Enhancements</p>	<p>As part of an effort to enhance the User Experience, we've made a series of interface and design changes, making SmartForce more user-friendly. Some of these enhancements include:</p> <ol style="list-style-type: none"> 1. New Centralized Screen for Post Effective Rates: This new screen provides a central place to manage Post Effective Rates that are currently entered via the position master in the rate effective dates collection: <div data-bbox="560 577 1317 913" data-label="Image">  </div> 2. TLM Schedule UI/UX enhancements: We've modified several screens and designs to make the experience more intuitive. <ol style="list-style-type: none"> a. Fixing spacing and removing unnecessary columns when not needed b. Removing unused and unnecessary filter options from the filters c. Add the option to lock days on the Schedule from the Lock Menu d. Display each cell's menu actions on the schedule in priority order based on the cell status e. Fixed linking and positioning on menu and important actions, and hide Broadcast button while schedule is loading f. Add LocationNo and PositionNo columns on respective TLM Location and TLM Position screens 3. Flash Messaging: Notifications when there are login issues, errors or validations have been made more noticeable and descriptive to help guide the user 4. Search Using "Contains": Instead of Exact match, searching on the change schedule screen using "contains" rather than exact match for more flexibility 5. Quick Create Enhancements: Add Business Unit field to Employee Master Quick Create screens for Licenses, Skills, Qualifications and Trainings 6. Flexible time entry in TLM: There is no longer a set interval on time entry; you can enter any number for time worked 7. Bulk Text/SMS: You can now configure a bulk text/sms message broadcast from the TLM Schedule screen 	<p>SmartForce</p>

FEATURE/APPLICATION	DETAILS OF THE RELEASE ITEM	PLATFORM
