FEATURE/APPLICATION	DETAILS OF THE RELEASE ITEM	PLATFORM
---------------------	-----------------------------	----------

Smartforce Ease of Use Enhancements

We continue to make enhancements to Smartforce to improve our user experience, including:

- Updating the TLM application to include functionality if users don't own the payroll and HR applications
- Limit screen refreshing when changes are made in TLM Schedule grid
- Some additional interface enhancements include:
 - Enable search filter in Customer column of Location master in Smartforce
 - Add Phone # column to combined Employee Profile index page
- We've added an "Employee Others" Pay/Bill rate management to Smartforce

Smartforce and Legacy

Various Fixes and Updates

We have made several other fixes and enhancements, including:

- Fix issue with Q2 2021 Form 941 with incorrect data in box 5a(i) and handling of negative amounts on Schedule B
- Fix issues with combined Employee Profile where some actions redirect to older functionality and errors when terminating from index page
- Fix issue to make pending punches in mobile app use business/rounding rules when they are approved
- Fix issue with multiple department filters and caching
- Fix issue with Punch vs. Paid report
- Refine Customer, Location and Position roles to limit access to only those hierarchy objects to which they should have permissions
- Modify abilities associated with *TLMScheduleMaintenance*, *TLMPositionMaintenance* and *ComapanyAdministratorQuery* roles
- Add Priority field to Implementations Utility
- Move deduction Priority field to employee level and update affected calculations
- Add OT2 field to Payroll Exceptions screen and include when creating payroll exception records

Smartforce and Legacy
